VISION

To inspire excellence, nurture character, increase social engagement and empower students with global skills that will help them become true citizens of the world

MISSION

We aim to instil the joy for learning in students, helping them achieve academic excellence. Character development of the children is of utmost importance to us. We encourage students to grow with enquiry, creativity and innovation, while embracing perspectives from a global standpoint, along with meaningful social participation and service.

VALUES

RESPONSIBILITY:	Taking charge of duties and fulfilling them
INTEGRITY:	Maintaining an unwavering sense of moral direction
RESPECT:	Treating everyone with respect and fairness
CRITICAL THINKING:	Analysing and evaluating before making judgements
LEADERSHIP:	Taking charge of duties and inspiring team members to do the same
OPEN-MINDEDNESS:	Imbibing new ideas and employing them for the betterment of the institution

MEET OUR FOUNDER

Mr. Uttam Singh

(Advocate)

No look into Pratham is complete without walking through our beautiful campus and meeting the students and faculty who make our school such a special place to learn and work. For years, Pratham has been stressing the fundamental elements of a traditional education. Our goal is to make our students independent learners, whose academic curiosity will serve as the bedrock of a purposeful life.

Co-Founder Mrs. Krishna Yadav (M.Sc. , B.Ed)

Greetings from Pratham International School!

It is my privilege to welcome you as the Head and co-founder of Pratham International School. Ours is truly a unique program and one that did not happen over night. Rather the vision of pratham was the result of several Journeys, Including my own, which led us down this path. I encourage you to take some time - Explore our Campus and read our program, History, Philosophy and our community

M. Director

Mr. Himanshu Yadav

(M.Sc , M.B.A , L.L.B , B.Ed)

Greetings from Pratham International School!

Pratham is a school committed to providing students with a solid educational foundation that will carry them through a lifetime of learning. We ensure that all students at Pratham are nurtured and provided with holistic education for all-round development.

CHAIRPERSON

Mrs. Nidhi Yadav

(M.Com , M.B.A , B.Ed)

Greetings from Pratham International School!

Our curriculum and teaching faculty deliver more than just the promise of challenging young minds to achieve excellence in all aspects of life. We give equal importance to academics and extracurricular activities, encouraging students to be balanced and responsible individuals.

ABOUT PRATHAM INTERNATIONAL SCHOOL

Pratham International School is a co-educational institution conveniently located Garhi Bolni Road, behind Gurutek City, Chhuriawas Road, Rewari, Haryana.

Spacious classrooms and open space environs offer an ambience conducive to intellectual pursuits and holistic development.

Challenging the traditional way of learning, the institution promotes activities that help develop the overall personality of a child. Moreover, the natural surroundings of the school help broaden the horizons of the children. The school has classrooms fitted with audio-visual aids. Besides, the school has well-equipped science labs, computer labs, a library and a cultural centre.

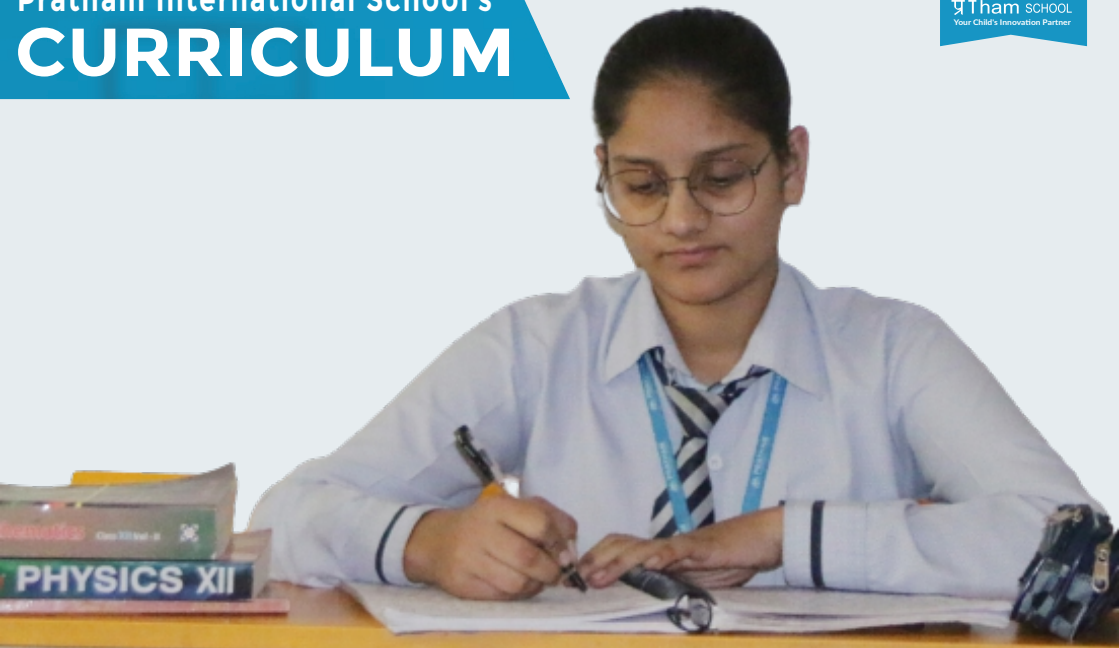

Pratham International School is located in a pristine environment with state-of-the-art infrastructure that provides children with the best of learning environments. With a learner-centric curriculum and technology-enabled learning, we aim to provide the best education to your child.

It is our sincere endeavour to take our academy to great heights and this can be achieved only with your support and good wishes.

Pratham International School's **CURRICULUM**

Smart Board

- High-quality content, state-of-the-art hardware.
- Mapped to CBSE and state board syllabus.

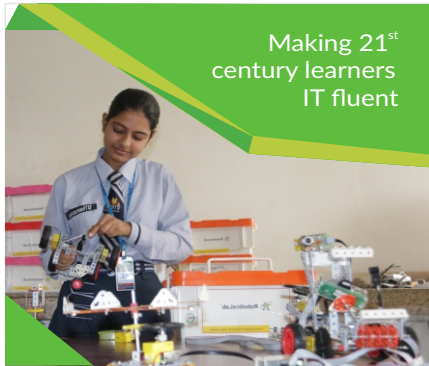

Pratham Preprimary

- Award-winning, age-appropriate and digitally integrated curriculum
- Develops linguistic, physical, intellectual, social and emotional skills

Making 21st
century learners
IT fluent

- Developed in association with IIT Bombay
- Encourages step-wise thinking, critical thinking and logical reasoning

Learn Pratham
The next way to Learn

A self-learning
solution for
in-depth
learning

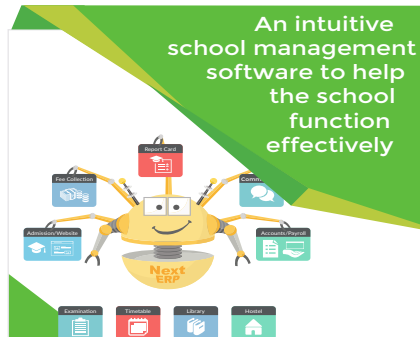

- Audio-visual explanations, live assessments, doubt clarification by subject experts

MEET Pratham Curriculum

Active learning
through exploring,
experimenting and
accomplishing

- To complement classroom teaching, the school has NextLab which comprises four well-equipped labs—MathsLab, ScienceLab, RoboticsLab and EnglishLab.
- These labs are developed for the inquisitive 21st century learners.

An intuitive
school management
software to help
the school
function
effectively

- A stable cloud-based platform
- Mobile app for on-the-go access
- Robust third party integration
- Complete security and privacy control

Learning beyond classroom

At Pratham International School, we believe that learning should not be limited to books or only to a classroom. For holistic development of learners, it is important that they interact and build a rapport with their peers and learn important social skills. Participating in various games, competitions and events enhances collaborative and cognitive skills of students.

The vast range of extracurricular activities at Pratham International School offers students an opportunity to form relationships, foster learning and encourage self-development. We teach our students the following important skills:

- Time management and prioritisation
- Setting goals
- Exploring diverse interests
- Building self-esteem
- Contributing to the community
- Working collaboratively

EXTRA CURRICULAR ACTIVITIES

"It is a miracle that curiosity survives formal education."

- Albert Einstein

INDOOR SPORTS AND OUTDOOR SPORTS

The importance of sports in a school cannot be stressed enough. Pratham International School is proud to offer high-end facilities for sports like cricket, Football, Horse Riding, chess, kabaddi, badminton, volley ball, basketball and skating.

Eco club in Pratham will empower students to participate and take up meaningful environmental activities and projects. Pratham's Eco club follows three main themes which are " people, nature and culture".

The club organises many plantation drive inside and outside the school boundaries, quizzes, lectures, debates and other useful activities. Pratham's students and teachers encourage peoples towards making a more sustainable environment.

To showcase the talent of students in various forms of dance, Pratham take a small step by introducing dance club under the leadership of professional Dancers.

This club increases students flexibility, range of motion, physical strength and stamina.

We focus on the movement of the students in a rhythmic way expressing an Idea or emotion, releasing energy or simply taking delight in the moment itself

Art and craft activities of Pratham help instil a sense of achievement and pride in children, boosting their self confidence. The student will learn to make correct and effective decisions by facing and solving artistic challenges.

Students as an artist will understand the role and creativity and cultural Industries. School has organised workshop for painting, collage making, clay modelling, sketching and many more.

To help students to cultivate their interest in music, to develop self discipline through regular practice and to develop leadership skills by conducting activities inside and outside the school premises, Pratham has started music club in which students learn all the aspects of music under the leadership of Well trained and educated musicians cum teachers.

**Music is
life
itself**

MUSIC CLUB

Pratham has designed a club to engage students in performing art and theater as a part of extracurricular activities. Student will learn acting skills, work on building sets and making props, designs costumes and makeup.

Club has performed many acts including "pollution free Diwali", "Save Girl Child" at Various Place in and out of the city on various occasions.

PRATHAM
INTERNATIONAL SCHOOL
YOUR CHILD'S INNOVATION PARTNER

"Libraries allow children to ask questions about the world and find the answers. And the wonderful thing is that once a child learns to use a library, the doors to learning are always open." - Laura Bush

Libraries in school are established with the idea of providing learning opportunities for both large and small groups of learners. These sets of learners focus on intellectual content. The school ensures that all members of the school community have equal access to books and reading, to information and information technology.

At Pratham International School, the school library is a collaborative venture in which the library staff, teachers and administrators work together to provide students with opportunities for their social, cultural and educational

**"I hear and forget.
I see and
I remember
I do and
I understand."
-confucius**

LABS AT PRATHAM INTERNATIONAL SCHOOL

Science involves kinesthetic learning and teaching. In order to understand its concepts, students must look beyond conventional classroom teaching and learning from books. At Pratham International School, the most modern labs ensure that the kids actually observe the process and understand the relationship between

action and reaction, using hands-on learning methods to apply the knowledge they have attained in the classroom. Anatomy models and Physics and Chemistry kits, for instance, make it easy to understand the otherwise complex theories of science.

In the technology-saturated world that we live in, it is extremely important to prepare students with technological skills. This is possible only when we impart the necessary technological knowledge and skills to them so that they can understand and thrive in a world where technology is ubiquitous.

Teaching Robotics is one of the most effective ways to inculcate innovative thinking in young children. It is considered one of the most important subjects in the 21st-century.

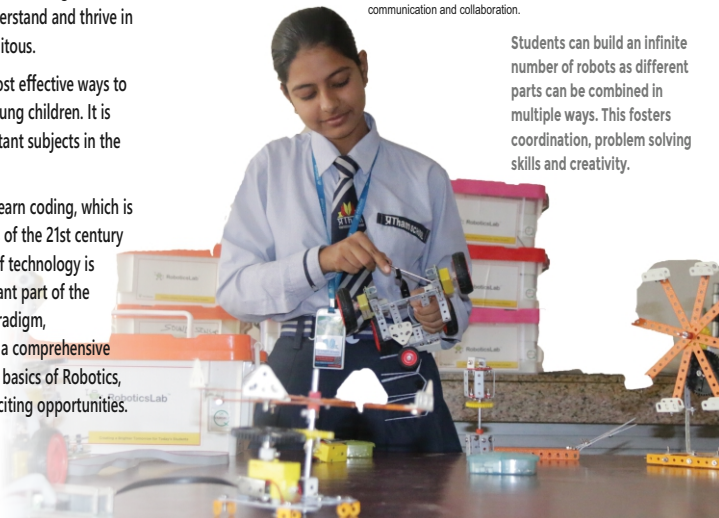

Robotics is also an entry point to learn coding, which is one of the most sought-after skills of the 21st century. In today's education, knowledge of technology is essential and should be an important part of the curriculum. Understanding this paradigm, Pratham Education has developed a comprehensive RoboticsLab that goes beyond the basics of Robotics, opening the door to a world of exciting opportunities.

How does RoboticsLab help students?

RoboticsLab comprises more than 150 quality parts and components and is designed to help students fine-tune their engineering and programming skills. It also helps develop a learner's logical thinking skills.

The visual programming interface allows learners to transform their algorithm to a program without worrying about syntax. It not only integrates Science, Technology, Engineering and Maths (STEM) concepts but also sharpens 21st-century skills such as creativity, critical thinking, communication and collaboration.

Students can build an infinite number of robots as different parts can be combined in multiple ways. This fosters coordination, problem solving skills and creativity.

COMPUTER LAB

Technology and education today go hand in hand and this makes it easier for students and teachers to stay updated. This helps teachers improve their teaching and lesson planning skills too. The well-equipped modern computer lab at Pratham International School aims at making the learning process simple

and efficient, giving students access to tools and methods of communication unavailable offline. This helps the students be more involved in their lessons and work. Teaching students to be technologically advanced helps them prepare for any number of possible careers.

"Man is still the most extraordinary computer of all." - John F. Kennedy

**EnglishLab™**

Learning English the Easy Way!

Today, English is the language that is predominantly used in business, media, art and academics. Hence, it is very important to understand and assimilate the English language as a medium of communication.

English language skills are indispensable for professional success, so it is critical not only to achieve communicative proficiency but also to learn to think in English.

"Learning a language is to understand others; to form connections." - Anonymous

How does English Lab help students?

EnglishLab caters to different needs of each learner, helping them improve in areas where they require support. It turns learning the language into a fun-filled experience with interesting games, helping students acquire skills and knowledge.

The Lab comprises a whole gamut of literary genres such as fiction, non-fiction and poetry, helping learners with practical usage. With a built-in dictionary, pronunciation tool, phonetic tutor and writing tutor, the Lab empowers students to attain mastery over the English language.

ScienceLab™

Discover, Experience, Explore

Science education today usually does not focus on practical application, but instead, relies heavily only on theoretical instruction, expecting students to remember concepts word by word. In order to thrive in the competitive and tech-savvy world, we need a science education that has a practice-based approach.

We need to remember that without practical application, science education is mostly redundant.

How will ScienceLab help students?

ScienceLab follows a four-stage experiential learning cycle and helps in understanding abstract concepts and applying them to real-life situations. With the hands-on approach of ScienceLab, students develop critical-thinking skills and learn faster and better.

ScienceLab has a great combination of activities and simulations that stimulate scientific curiosity in students. The NCERT-prescribed experiments conducted step-wise in a virtual setup help students explore different aspects of a topic. ScienceLab also contains computer-based activities with which students can reinforce the concepts learnt in class and relate them to their daily lives.

Tham SCHOOL
Your Child's Innovation Partner

SCIENCE LAB

MathsLab

Mathematics is an important subject, not just in school but throughout life. The abstract nature of mathematical concepts makes it difficult for students to relate to it or understand it.

Rote learning will definitely not help students in learning this subject. Moreover, expectations from parents and the inability to cope with the pace of instruction in class often generates stress in students.

For mathematical education to be effective, we need a method of instruction that is based on real-life scenarios with scope for practical application. It needs to have an interdisciplinary and hands-on approach to be more effective.

MathsLab addresses all these challenges and the modules are designed in such a way that it removes the fear of Mathematics in students.

How does MathsLab help students?

The whole objective of MathsLab is to remove the fear of Maths in students. With 200+ real-life scenarios and 1000+ story-based activities, students can easily understand complex mathematical concepts. With 200+ hands-on and paper-cutting activities, and 40+ hands-on manipulatives and digital video content, it makes the subject easy to understand.

MathsLab takes a gamified approach which introduces the fun element, boosting student motivation. An adaptive method is also employed in MathsLab, allowing students to progress across different levels of difficulty at their own pace.

PRATHAM INTERNATIONAL SCHOOL TRANSPORT

Our transport fleet consists of comfortable buses to pick up and drop students. Only experienced and qualified drivers are appointed after undergoing a driving test to ensure safety of our students.
